

CONTENTS

Vol.44 No.3 May 2013

Japanese Journal of Clinical Pharmacology
and Therapeutics

Original Article

- Relationship between Genetic Polymorphisms and mRNA Expression of Dihydrofolate Reductase Enzyme in a Healthy Japanese Population Masayuki HASHIGUCHI, et al. 185
- Drug Safety Evaluation Using a Healthcare Information Database: Using Statin-Related Adverse Drug Reactions as Examples Keiko KONOMURA, et al. 193

Forum

- The Present Status and Issues Regarding Contracts for Compensation with Insurance Companies in Investigator-Initiated Clinical Studies at the Osaka University Hospital Hiromi UMEZOME, et al. 201
- Centralization of Reviews by IRBs in University Hospitals: Consideration of Collaborative IRB in University Hospital Clinical Trial Alliance Kazuhiko MATSUMOTO, et al. 207

Proceedings of the 33rd Annual Meeting of the Japanese Society of Clinical Pharmacology and Therapeutics

- Contents 217
- “Personalized Medicine to Avoid Severe Adverse Drug Reactions” 219
- “Role and Promotion of Child Medication Pharmacists in Japan” 235
- “Use of SS-MIX Standardized Storage for Post-Marketing Studies and Clinical Trials” 251

Proceedings of the 19th Training Course in Clinical Pharmacology

- “Knowledge of Clinical Pharmacology, An Update”
1. Clinical Pharmacokinetics: Application to Bed Side through Extensive Understanding of the Whole Processes in Human Body Ichiro IEIRI 268
 2. Pharmacogenomics in Clinical Pharmacology Hirotoshi ECHIZEN 273
 3. Chronopharmacology Akio FUJIMURA 277
 4. Key Concepts in Drug Therapy for Children, Lactating Mothers and Pregnant Women Shinya ITO 281
 5. Drug-Drug Interactions --With Special Emphasis on Psychotropic Drugs-- Koichi OTANI 286

Report

- Report of Trainee of the Foreign Clinical Pharmacology Training Program: No.2 Harumasa NAKAMURA 291
- Report of Trainee of the Foreign Clinical Pharmacology Training Program: No.3 Masaya KOSHIZAKA 297
